

AMERICA'S FREEDOM BROADCAST RADIO

The following press release is about America's Freedom Broadcast Radio. Click on the link www.afbradio.us it is an online internet radio station that supports our Troops, Veterans and their families.

Any help you can lend in getting the word out about us would be great. Anyone can listen to the station anywhere in the world provided he or she has an internet connection and can receive streaming audio. This really is a wonderful thing for the troops currently deployed as they can make song requests and dedications and if there is a live DJ on at that time, they will play the song request and give them a shout out. It is a wonderful way to give them a connection back home.

Please take a minute to listen. I appreciate your time

DJ Julia Gulia
